**TOMATO SWEET BABY**

*Solanum lycopersicum L. 'Sweet Baby' Common name: Tomato*

**Outstanding variety producing a very prolific crop of 8-10g (1/3oz) small, cherry sized fruits with a delicious sweet taste plus a bit of traditional tomato 'bite'. Trusses hang like bunches of grapes when grown outdoors or under glass as a side shooted cordon.**

- **Flavour guide: Very sweet, bite-sized fruits**
- **Easy to grow variety as a cordon (removing side shoots)**
- **Suitable for indoor and outdoor growing**
- **Sow April to May**
- **Prefers well-drained, moist, rich soil in full sun**
- **Harvest August until first frosts**

**SOWING INSTRUCTIONS** Place seed on the surface of a good, free-draining, damp seed compost and cover with a fine sprinkling of compost or vermiculite. Place in a propagator at a constant temperature of around 18-20C (64-68F) until after germination, which takes 7-10 days.

**GROWING INSTRUCTIONS** Transplant seedlings when large enough to handle into 7.5cm (3in) pots. Plant in final situation when 20cm (8in) high, 45cm (18in) apart. Remove sideshoots regularly.

**SERVING SUGGESTION** The perfect cherry fruit, ideal for fresh salads.

 Tomatoes are packed with antioxidants and high in vitamins A and C and lycopene, all helping to stimulate your body's immune system.

 **THOMPSON & MORGAN**  
**Quality Guaranteed**  
LABORATORY & FIELD TESTED

In the unlikely event you have any cause to complain, please return this packet for credit or replacement.

**T&M RECOMMENDS**  
Storing seed in a cool, frost-free area, out of direct sunlight, in an airtight container.

Standard Seeds - complies with EC rules and standards Origin U.K.
